## **WORKSHOP**

### ***Deploying renewable energysources and energy efficiency measures in the Mediterranean: State of play and way forward***

**13 April 2016, from 14.00 to 16:30 (local time)**

**Madrid, Spain**

**Headquarters of the Comisión Nacional de los Mercados y la Competencia (CNMC)**

**Alcalá 47 (28014 Madrid)**

***Kindly hosted by CNMC***

## **AGENDA**

### **Scope of the Workshop**

This workshop provides the occasion for a comprehensive discussion on the status of renewable energy sources (RES) integration in the grids and on energy efficiency (EE) measures adopted in the Mediterranean basin. The event involves four actors who, with different perspectives and expertise, have been contributing to advance the agenda of RES and EE in the region.

During the first part of the workshop, each institution will present and discuss the most relevant aspects of its current work. In the second part of the workshop, relevant stakeholders involved the Union for the Mediterranean (UfM) Euro-Mediterranean Platform on Renewable Energy and Energy Efficiency (REEE) will discuss the forecasted activities of the Platform and brainstorm on how technical stakeholders, particularly regulators, could contribute to their advancement.

The workshop will take place under Chatham House rule: participants are free to use the information received, but neither the identity nor the affiliation of the speaker(s), nor that of any other participant, may be revealed.
